

CASPER SPECIALTY UK LIMITED (CASPER)

SLAVERY AND HUMAN TRAFFICKING STATEMENT 2024

Pursuant to section 54(1) of the Modern Slavery Act

Under the Modern Slavery Act 2015 ('MSA'), commercial organisations operating in the United Kingdom are required to set out, in a publicly available statement, their commitment to comply with the Act and provide information to show the steps taken not only to mitigate the risk of modern slavery occurring within their organisation but also their commitment to considering such risks arising in the wider supply chains. This statement is in respect of the financial year to 31 December 2023.

Paragraph 7.6 of the MSA provides updated guidance, which strongly recommends that businesses who produce a statement in one financial year should continue to produce a statement in future years.

The updated guidance adds a definition of child labour and highlights the point that child labour will not always constitute modern slavery. The emphasis in the updated guidance on child labour means that organisations must be particularly vigilant on the incidence of child labour in their supply chains. Casper recognises this risk and is committed to ensuring that its policies and procedures reflect the need to ensure such instances cannot occur.

This document is Casper's first MSA statement and demonstrate Casper's commitment to ensuring there are no instances of modern slavery or child labour within the organisation and, also, within its wider supply chains.

Organisational Structure

Casper is a leading specialist Managing General Agent, headquartered in London with under 20 employees.

Casper is committed to ensuring that there is no slavery or human trafficking within its own business and supply chains. Casper is committed to acting ethically and with integrity in its business relationships and to implementing and enforcing effective systems and controls to ensure that slavery and human trafficking is not taking place in any stage of the supply chains.

Given the nature of its business, its role as an intermediary in the insurance distribution chain and the entities with whom Casper trades, Casper's Board and management teams consider that there is minimal risk; however, this does not reduce our commitment to monitor the position and ensure adherence to our commitment to uphold the policies and procedures in place to safeguard against slavery or human trafficking practices.

Policies Relating to the Act

Casper has a robust and comprehensive whistleblowing policy, which includes circumstances that may give rise to human trafficking or modern slavery.

Recruitment

We have a comprehensive recruitment process in place to ensure that we comply with relevant UK employment law and we continue to monitor this to ensure ongoing compliance with the MSA. We carry out reference checks on hires and complete identification checks for new joiners to ensure that they have the right to work in the UK. Robust processes ensure that employees are of age and status.

Training

Casper understands the importance of maintaining effective internal measures to ensure human trafficking and modern slavery is not supported at any level of the business.

We have created bespoke e-learning training to inform employees about the MSA and what it is designed to address. In addition to this training, we continue to direct our employees to modernslavery.co.uk and explain how this site provides effective guidance on recognising the different types of potential slavery and how to deal with it.

This statement has been approved by the Managing Member of Casper Specialty UK Limited.
